All factory records data is preliminary and needs to be double checked.

Note that all records are the latest data found as of the revision date. Since there are several sets of film for these records I may not have found all of the data for this chart.

(1) No record found. Note there are several filmings of the records of this time period and although most records are in order, not all are. This makes finding a record very difficult add makes getting an accurate count difficult as well.

U Unknown

NR Not Recorded

Serial number and other data in **red** is a gun observed in the field.

Serial number hi-lited in green is the lowest serial number in a production group.

Serial number hi-lited in yellow is the highest serial number in a production group. Serial number hi-lited in blue is a single gun not part of a group of similar catalog numbers. Data in blue is from factory records
